At the top, there is a banner for the Aruba Support Center (ASC) transitioning to the Aruba Support Portal, with a notice that access to all content on ASC for Aruba products will be discontinued in November 2020. Below the banner, there is a navigation menu with options: Home, Tools & Resources, Documentation, Lifetime Warranty Software, and Contact Us. The main content area is titled "ARUBA SUPPORT CENTER" and "Tools & Resources". On the left, there is a sidebar with a tree view of resources, including "PEAP-GTC Plug-in". The main content area shows a "Root Collection" for "PEAP-GTC Plug-in". Below this, there is a table with columns: Description, Remarks, Last Modified, and Size. The table contains three entries: "Archive" (11/11/2010), "Aruba PEAP GTC plugin for 32 Bit Windows" (9/15/2015, 2.5 MB), and "Aruba PEAP GTC plugin for 64 Bit Windows" (9/15/2015, 2.6 MB). The last two entries are highlighted with a red box. To the right of the table, there is a section for "Latest Airheads Discussions" with two discussion entries: "Device fingerprinting in ArubaOS CX" and "Cisco ISE Remeber Me with MAB function for guest access to a WLAN".
